

Farmers/Producers/Vendors 2021 COVID RULES

No sampling of products will be permitted at the market.

All prepared foods must be ready to take away to eat off-site.

If shoppers purchase ready-to-eat food from you, ask them to eat it at home and not in the market space.

Please regularly sanitize or wash your hands at least once per hour. Farmers/producers need to bring hand sanitizer.

All staff must wear masks of some sort throughout the day, in accordance with the CDC recommendations regarding the use of cloth face coverings. Current requirements are that nose and mouth are to be covered and it is recommended that you double mask if you do not have an N95 mask.

Vendors will close off the front of vendors' tents with caution tape to prevent shoppers from entering.

Assign separate staff to manage money only and product only to keep lines short and reduce contamination of food after touching money.

Vendors are encouraged to round their prices to the nearest dollar to avoid handling coins. Vendors handling money should not touch food products until they have washing their hands.

Vendors are required to wipe off credit cards and card readers before and after each transaction.

All products sold must be pre-packed (packaging does not need to be plastic). **Customers must not be allowed to handle and browse products under your tent.** Rearrange your market setup to discourage shoppers from entering your tent.

Vendors must clean and sanitize their supplies and equipment regularly. For surfaces that will be in contact with food or food products, use detergents and sanitizing solution that are food safe.

Vendors are asked not to attend the market if they are sick or have been exposed to (or suspects they have been exposed to) COVID-19.

Implement contactless pay, pre-order/pickup and other low-touch or no-touch options as much as possible.

I agree to abide by these rules and will ensure that my staff does as well.
